# Giveaway & Contest Management – Process Flow

## Register

Get started with the platform in a few steps

## Create Giveaway

Set the parameters for the giveaway, like number of winners, rewards to be awarded, etc..

## One Link Solution

Generate a one link solution for all socials and let users participate through the same and the tasks can also be tracked therein

## Distribution

Distribute the prizes to selected winners in a seamless way, along with the plugins to materially distribute it

The participant data thus generated can be utilized further to target the audience more effectively and make better marketing decisions
